

ADDITIONAL TESTING

OPTIONAL

WHAT ARE THEY?

Please Note: You will be responsible for the cost of the additional test(s) if you choose to have them added to your blood sample. The cost will be deducted from your paycheck following the screening.

PSA

\$12.10

Measures the level of PSA in a man's blood. Elevated levels may indicate abnormal conditions, including prostate cancer. Strongly recommended for men 40 and older.

TSH

\$7.70

Initial test for evaluating thyroid function.

CBC

\$6.45

Measures the levels of red blood cells, white blood cells, platelets, hemoglobin and hematocrit. CBC is often used to check for anemia, infections, and certain blood cancers.

IMPORTANT!

In order for the additional test(s) to be ran, you must bubble in which tests you want on your consent form. Failure to do so will result in the lab not adding the tests.
